OBJECTIVES AND FORMAT

ROUND 2: BUSINESS ANALYTICS REPORT

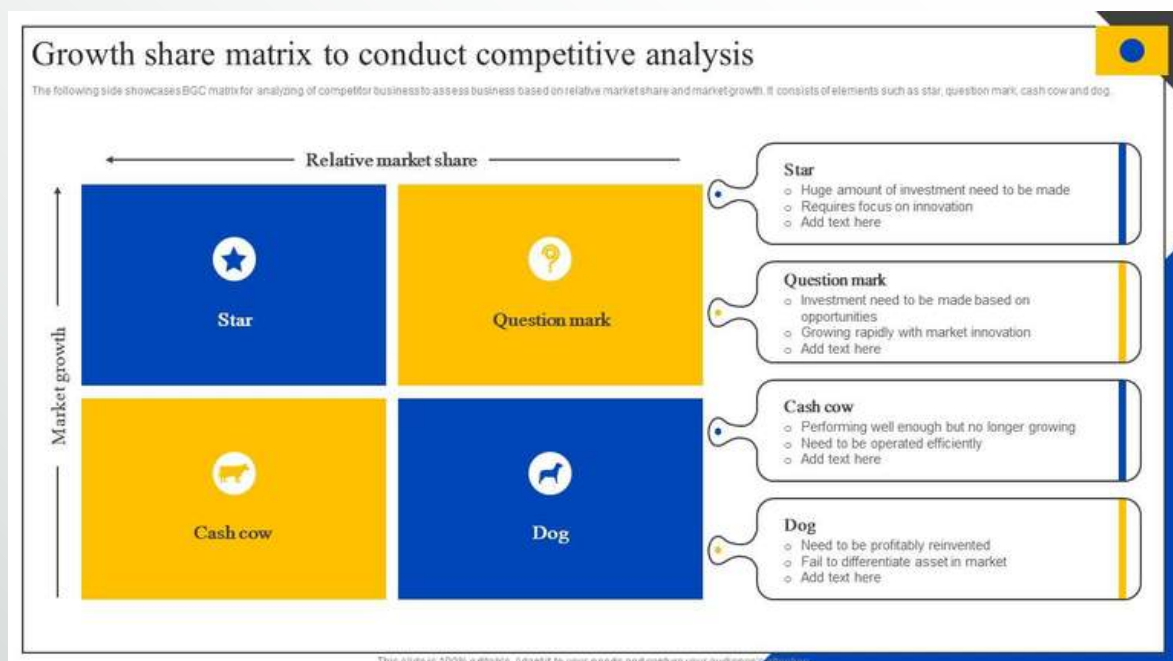

● OBJECTIVES

This round assesses ability to conduct data-driven market analysis from the perspective of a fintech company evaluating potential target markets. Teams will clean and analyze the provided datasets, identify market segments with the highest potential, and justify their selection using both quantitative insights and qualitative reasoning.

Participants are also expected to integrate Vietnam's current macroeconomic conditions, banking trends, and customer behavior insights into their analysis. The final output should convincingly recommend the most promising target market to the **bank's senior product management team**.

● FORMAT

- **Deliverables:** Slide deck
- **Question type:** Slide deck up to 15 slides (excluding appendix & references)
- **Submission:** Google Form upload of slides and presentation recording

● TASK DESCRIPTION

As a business analyst within the Strategic Growth division at FinInnovate, you are required to prepare comprehensive report about any untapped market opportunities that will define the next phase of the company's growth.

Note:

- Your analysis should consist of macro-environmental analysis and competitive landscape to identify the market gap.
- You are provided with a dataset containing 50,000 anonymized records of past loan applicants.
- The report must include high-quality, clearly labeled data visualizations to support your arguments.
- An appendix summarizing your predictive model's performance, key variable importance, and the rationale behind your modelling choices.
- Your report must be a compelling, evidence-based argument heavily supported by rigorous data from market research and insightful analysis of a provided dataset.

RUBRICS

ROUND 2: BUSINESS ANALYTICS PRESENTATION

Criteria	Ratings			
	25 to >21 points Excellent	21 to >16 pts Good	16 to >11 pts Fair	11 to >0 pts Poor
Data Preparation & Analytical Rigor (25%)	Dataset is thoroughly cleaned and well-prepared for analysis. Predictive modeling is applied appropriately with clear rationale, and results are correctly interpreted. Methods (segmentation, correlation, regression, clustering, etc.) are rigorous and demonstrate advanced analytical reasoning. No major errors.	Data is mostly cleaned with minor gaps. Modeling methods are relevant and correctly applied but lack full explanation. Analysis is reliable but not deeply explored.	Partial cleaning with noticeable inconsistencies. Modeling is basic or weakly justified. Limited depth in analytical approach, with some errors.	Minimal cleaning. Models are missing, inappropriate, or misapplied. Findings unreliable due to major methodological flaws.
Insight Quality & Interpretation (25%)	Insights are highly relevant, original, and actionable. Clear identification of untapped market opportunities supported by evidence. Demonstrates a strong link between predictive model results, data visualization, and strategic implications.	Insights are relevant and actionable but less original. Some market gaps identified but not fully developed or strongly justified.	Insights are generic, predictable, or loosely connected to FinInnovate's growth strategy. Visualizations are descriptive but lack	Insights irrelevant, unsupported, or absent. No meaningful connection to market opportunity discovery.
Integration of Macro-Environmental & Competitive Landscape (20%)	Thorough integration of macro-environmental analysis and competitive benchmarking. Demonstrates clear understanding of how FinInnovate can differentiate from conventional banks and FinTech peers. Evidence is well-sourced and specific.	Relevant context provided with some competitive or macroeconomic insights, but analysis lacks depth or specificity.	Minimal reference to macro or competitive landscape; connections to FinInnovate's strategy are weak.	No meaningful use of market or competitive analysis.
Strategic Fit & Recommendation Strength (15%)	Recommendation is compelling, innovative, and well-supported by both quantitative analysis and qualitative reasoning. Clear alignment with FinInnovate's mission, values, and capabilities.	Recommendation is logical and relevant but partially supported. Strategic alignment is present but not strongly argued.	Recommendation is weakly connected to analysis or lacks clarity in feasibility.	Recommendation is unclear, unsupported, or impractical.
Slide Materials (8%)	Slides are visually appealing, professional, and easy to follow. Content is well-structured with logical progression and concise text. Visuals (charts, graphs) effectively support the message.	Slides are clear and generally well-organized, but with minor design or layout issues.	Slides are cluttered, text-heavy, or inconsistently formatted. Visual aids are used but not	Slides are confusing, incomplete, or visually unappealing.
Delivery & Engagement (7%)	Delivery is confident, well-paced, and engaging. Team members speak clearly, share speaking roles effectively, and handle timing well.	Delivery is clear but lacks strong engagement or seamless transitions between speakers.	Delivery is uneven, with unclear speech, monotone tone, or awkward transitions.	Delivery is disorganized, unclear, or unengaging, with major timing issues.
